

UNITED WAY OF SOUTHEAST LOUISIANA BUSINESS CASE

Live United

In an increasingly turbulent world, having a compelling north star that benefits society, stakeholders and business creates a pathway to business and societal success. In fact, companies whose purpose is a core driver of strategy are more likely to realize successful innovation and consistent revenue growth than competitors.

~ Harvard Business Review

Today's workforce places a premium on a company's corporate social responsibility (CSR). CSR drives employee recruitment, engagement, and retention; customer loyalty; and long-term business success. (2016 Cone Communications Employee Engagement Study)

- A balanced, well-managed CSR strategy has substantial potential to deliver ROI and business benefits
- CSR can increase market value by 4-6% and increase revenue by up to 20%
- Employees overwhelmingly report (74%) improved job satisfaction when their companies provide opportunities to make a positive impact on social issues
- 70% of employees say they would be more likely to remain loyal to a company that helps them contribute to worthy causes

It is clear; employees want to be a part of something bigger. They are looking for new, innovative ways to engage in workplace giving and volunteerism, and United Way is here to help position you as a sustainable business.

OUR COMMUNITY.

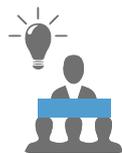

1 in 2 households in Southeast Louisiana struggles to make ends meet.

Why are Households Struggling? ALICE [Asset Limited, Income Constrained, Employed] households work hard but struggle to afford basic needs. ALICE is our neighbor, friend, and family member. ALICE prepares our coffee, takes care of our loved ones, and serves our meals. ALICE also lives paycheck to paycheck, unable to save, and one unexpected financial need away from poverty themselves. More than 235,000 households in Southeast Louisiana struggle with financial hardship as ALICE or in poverty – **and that figure may even include many of your own employees.**

How Does This Affect Your Business? When half of households struggle, we all face serious consequences. Because ALICE employees and those in poverty are an integral part of our economy, we suffer when the important services they provide are delayed or reduced. Communities are destabilized, growth is thwarted, and costs rise when households cannot weather a crisis. Employees feel this in:

Greater pressure on health care and social services

Increased need for educational remediation and training

Less engaged and skilled workforce, reduced economic growth

Lost work productivity, increased burden for coworkers, and reduced customer service

UNITED WAY IS GOOD FOR BUSINESS.

To solve big problems, we need long-term solutions. United Way of Southeast Louisiana's Blueprint for Prosperity - our strategic plan to move individuals out of poverty - identifies specific indicators and outcomes that will maximize employment and increase the productive capacity of our regional economy. We work closely with top corporate, government, and community influencers on critical community issues to improve conditions for business success.

United Way focuses on three critical areas aimed at strengthening Southeast Louisiana's economic growth:

- Building a more engaged and skilled workforce
- Minimizing the pressure on health care and social services
- Supporting corporate social responsibility efforts

As we continue to improve economic opportunities for business in Southeast Louisiana, we remain dedicated to providing the support necessary to help your business thrive.
