WHAT ARE THEY SAYING

"The IDA Project made the process of home repair painless. The staff were super helpful and friendly. My family had a wonderful experience. Thank you!"
- Thomas

When asked what encouraged her to enroll in the program, Meleah responded: "It is not what encouraged me to enroll in the IDA Project but who did." After sharing her dream of car ownership, her sister pointed her to the same program that helped her.

Not only did the IDA Project help me financially, it also helped me resourcefully. I was provided with so much useful information that will help me further on in life. I am forever grateful to United Way."

"The IDA Project not only validated my hard work and determination, this project also made my goal of homeownership within arm's reach!"
- Heather

SAVING MONEY

United Way’s IDA Project helps low-income individuals and their families save money through a matched savings program, which is designed to meet the needs of a community with long-standing high percentages of intergenerational poverty. We address these needs by helping participants save for a major investment, like a home, home repair, vehicle, post-secondary education, or small business.

Participants make regular deposits to a special Individual Development Account (IDA), held at a local financial institution. When the savings goal is reached, United Way sends a check for the investment purchase to the closing agency, dealership, college, or vendor.

WHO QUALIFIES?

Participans must be an individual or a household, have earned income, and meet the following criteria:

- Individual or household is eligible for the Temporary Assistance for Needy Families (TANF) program at the time of application.
- Household net worth was less than $10,000 at the end of the calendar year that preceded the time of their application (not including the value of their primary dwelling unit and one motor vehicle);
- Household annual adjusted gross income is less than twice (200%) the Federal Poverty Level at the time of application (see chart below) or within Federal Earned Income Tax Credit limits.

OR BOTH of the following:

- $7,500 max investment for home or small business | $1,500 savings + $6,000 match
- $5,000 max investment for education or vehicle | $1,000 savings + $4,000 match
- $5,000 max investment for home maintenance | $1,000 savings + $4,000 match

“When one person achieves success through our IDA Project, they tell their friends and neighbors who also join the program. That’s how we build a strong, financially stable community. I look forward to seeing you join us.”
